Teacher/Music Classes

Week(s)/Month(s) of

Aim
How can we:

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Do Now
Students warm up on pianos or other instruments (including voice) using improvisation or piano worksheets from specialneedsinmusic.com

They are instructed to ask themselves: “Do you like the sounds you are creating?”

____________________________________________________________________________
____________________________________________________________________________

Materials and Resources

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Communication of Main Ideas of Lesson
Steps and Strategies for communicating the main ideas of the lesson.
1.___________________________________________________________________________
2.___________________________________________________________________________
3.___________________________________________________________________________
4.___________________________________________________________________________
5.___________________________________________________________________________

Additional steps if needed
1.___________________________________________________________________________
2.___________________________________________________________________________
3.___________________________________________________________________________
4.___________________________________________________________________________

http://specialneedsinmusic.com
We need to understand characteristics of the main concepts of the lesson so that we can:

1. to apply these concepts to playing instruments and/or singing.
2. design and create improvisations.
3. explain phenomena of ______________________________________________________
4. analyze our own and others' improvisations.
5. prove that an improvisation used concepts related to the main ideas of the lesson.
6. identify the inclusion of musical concepts involving rhythmic patterns, dynamics, time signatures, melodic motifs when applicable and practical.
7. Include musical expression, accompaniment, dynamics, tempo, modes, scales polyphony and melodic phrases as part of performance as outlined in The Blueprint for the Arts.
8. Include activities as outlined in the "Goals and Objectives for Special Needs and Other Students" found at specialneedsinmusic.com

Activities based on multi sensory approach
1.___________________________________________________________________________
2.___________________________________________________________________________
3.___________________________________________________________________________
4.___________________________________________________________________________

Expectations
Students will be expected to link academic subjects such as math and ELA through creation, practice visual, auditory analysis of music. Students will measure, count, understand patterns.

Students will improve interpersonal communication by gesturing, explaining, questioning and/or concurring.

Students will listen, focus and/or attend to task.

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Monitoring and Response to Behavior
Strategies can include teacher observation, para observation, use of Encouraging and Supportive Comments (see page 7 of the pdf link), open ended questions, intervention, CDs, Music Achievement Award Certificates reward system as applicable.
Para Assistance
Listen and respond respectfully to student work, blend with student work model and aid students with audio and visual cues, respond to behaviors either with praise from Encouraging and Supportive Comments (see page 7 of the pdf link) or respectful correction.
Assist by breaking down pieces into short phrases as needed. Give a short physical prompt if necessary. Work with individuals or with groups.
When absolutely necessary use hand over hand assistance.

Guided Practice
Peer to peer support and tutoring, teacher/para feedback, demonstrations, questioning, and modeling.

Levels
high functioning – play and compose, sing, conduct, improvise, demonstrate, prove, analyse, critique, instruct, choose, teach
mid functioning – all of the above with examples up to 2 measures
low functioning – listen, gesture, try, play, sing, conduct, make brief eye contact, choose.

Open Ended and Specific Questions
Open Ended
Examples:
1. How did your work sound to you?
2. Did you think you used enough ________________? (i.e. dynamics, accents, notes ) Why?
3. Was the tempo good? Why?
4. What made this piece sound ________________? (i.e. pentatonic, jazzy) Why?
5. What is a good name for your piece?
Specific Questions
Examples
1. How many notes are there in the pattern?
2. Does a chromatic scale use only white notes?
3. Does a chromatic scale use white and black notes?

Questions specific to this lesson.
1. __________________________________________________________________________
2. __________________________________________________________________________
3. __________________________________________________________________________

Discussion Techniques
Encourage students to talk to each other about their performances, or sign or gesture. Students will be encouraged to share musical examples about what you have discussed.

Use strategies that help students relate to other students, i.e. ask a student to show another student how to do something.

Ask students to teach the class about the subject, i.e. dorian mode, staccato.

Function of Groups
Encourage communication, creativity, musicianship, technical skills, and classroom citizenship. Consider student choice, individual and group practice in a fluid and flexible manner.

Activities and Assignments
Based on student choice on instruments and interest as needed.
See Data Sheets to Track Students Progress section at the specialneedsinmusic.com Workshop Lessons Page.

Inclusion of Common Core ELA and Math – stress communication skills and measurement, patterns and counting skills.

Keep asking students to tutor other students through verbal and kinesthetic examples. Encourage interpersonal skills involving both give and take.
Structure and Pacing
Encourage students to go at their own pace.
Introduce and review concepts as needed.
Use a flexible approach that takes student interests and fascinations into account.
Explain and reexplain the modes as needed.
Use examples and accompany group and whole class lessons as needed with the teacher’s improvisation to guide the group.
This lesson can take from a week to six months or more, depending on how often students meet, their ability level, and their interest in learning to improvise. Also take into account upcoming assembly schedules.
This lesson plan can be taught in mini lessons so that other musical activities i.e. learning a new song for chorus can be given equal attention. The lesson can be taught as a unit that incorporates multiple concepts involving elements of music such as dynamics, staccato, legato, allegro, andante, presto, largo, 2/4, 3/4, 4/4 and 6/8 time.
The lesson can be combined with concepts regarding vocal and piano technique. It can be a springboard for any of the aforementioned concepts. For example, students can improvise in 2/4 time, using crescendo and legato.
The lesson can also be turned into a game using ideas found in the Treasure Box Game.

Assessment (Data Sheets to Track Students Progress)
Look for the “ah ha” moment or the surprise in burst of creativity.
Have students share their achievements in music.
Have students gesture, question or comment about their own work or other students work.
Video and photograph student work.
Use data sheets.
Ask for paraprofessionals for feedback and assistance with data keeping and/or

Feedback to Students
Correct wrong notes but always keep the students’ level of frustration in mind and have realistic expectations for the lesson by not overdoing it.

Materials and Differentiated Instruction
Piano, xylophones, chimes, percussion. Treat each student as an individual with individual musical talent.

Wrap Up
Recognition of Student Achievement - Distribution of Music Achievement Award Certificates found at specialneedsinmusic.com

http://specialneedsinmusic.com
Resources and Links

NYS Arts Standards

The four standards defined in the NYS Arts Standards are used in this lesson.

Alternate Assessment Standards for Students with Severe Disabilities

Standard 1
Creating, Performing, and Participating in The Arts

Standard 2
Knowing and Using Arts Materials and Resources

Standard 3
Responding To and Analyzing Works of Art

Standard 4
Understanding The Cultural Dimensions and Contributions of The Arts

Use of Common Core ELA Standards involving expressive, receptive and textual use of language should be integrated into the lesson and later on assessed. (See the attached assessment sheet on pages 9 and 10)

or download

An example of this is to have the student explain to a peer how to read the text from left to right, when applicable.

Use of Common Core Math Standards involving measurement, counting and use of patterns should also be integrated throughout the lesson through questioning and imitation (See attached assessment sheet and other sheets relevant to the Common Core Math Standards.

An example of this is to have the student count up the number of repeated patterns, or express the number of fingers he or she is using.

Groups, Individual Practice, and Guided Practice

Students will be given as an educational strategy leeway in who they sit next to. Groups can be somewhat homogenous in level or mixed. Peer intervention should be encouraged in an age appropriate manner with students creating a friendly and supportive learning environment.

Students who feel they need to practice individually will be allowed to do so. They can share their progress later on.

Guided practice should be multi sensory. Audio, verbal and visual prompts should be used as needed. Chords should be broken down in smaller steps as needed.

Use of open ended questions such as “How do you think you are doing?” should be used to help students evaluate their own work. In rare instances, hand over hand prompting may be necessary.

Paraprofessional Assistance

Paraprofessionals should participate fully during Guided Practice and should demonstrate, comment, and use prompts. Students can occasionally change roles with the paraprofessional or teacher and offer comments about the execution of the chord progression. Paraprofessionals can also assist with data keeping and encourage students with supportive comments about their achievements.

Use of Certificates of Achievements

Students should be rewarded with Certificates of Achievements for their hard work. It is nice to put a picture of the student playing or singing on the certificate.

http://specialneedsinmusic.com/wkshlsn.html

Home Study and Follow Up

Students can practice the Caribbean Resolution by using the Silent Practice method on their piano sheets if they do not have a keyboard. Students can listen to the audio file at home.

Assessment Sheet

Combining Music Activity, National Standards, DOK level, and Common Core Standard

Student __________________________

Class ___________ Date ___________

Use a checklist that covers the following actions and/or video student engagement.

Low Functioning
1. Student responded through eye contact  yes___ no____ n/a ___
2. Student responded through movement or gesture  yes___ no____ n/a ___
3. Student sang out during lesson  yes___ no____ n/a ___
4. Student used an instrument to express reaction  yes___ no____ n/a ___
5. Students used an adapted communication sheet such as Give Me 20.  yes___ no____ n/a ___

Comment on DOK level __________________________

_____________________________________________________________________

_____________________________________________________________________

Comment on use of Common Core Standard __________________________

_____________________________________________________________________

_____________________________________________________________________

Middle Functioning
1. Student followed one step directions.  yes___ no____ n/a ___
2. Student sang back the melody with 60% or more accuracy.  yes___ no____ n/a ___
3. Student tapped out a steady beat.  yes___ no____ n/a ___
4. Student clapped out the rhythm correctly.  yes___ no____ n/a ___
5. Student shared work with others or helped others.  yes___ no____ n/a ___
6. Student asked or answered questions using a communication sheet.  yes___ no____ n/a ___
7. Students asked or answered questions verbally.  yes___ no____ n/a ___
8. Student found worksheet or audio file at specialneedsinmusic.com  yes___ no____ n/a ___
Comment on DOK level

_____________________________________________________________________

_____________________________________________________________________

Comment on use of Common Core Standard

_____________________________________________________________________

_____________________________________________________________________

High Functioning

1. Student followed one step directions. yes___ no____ n/a___
2. Student followed two step directions. yes___ no____ n/a___
3. Student sang the melody correctly. yes___ no____ n/a___
4. Student played rhythm correctly. yes___ no____ n/a___
5. Student played using a worksheet with guided assistance. yes___ no____ n/a___
6. Student played using a worksheet independently. yes___ no____ n/a___
7. Student played by ear or by memory. yes___ no____ n/a___
8. Student shared work with others or helped others. yes___ no____ n/a___
9. Student asked or answered questions. yes___ no____ n/a___
10. Student found worksheet or audio file at specialneedsinmusic.com yes___ no____ n/a___
11. Students shared work with others or helped others. yes___ no____ n/a___
12. Students wrote comments on their piano melody page using a menu. yes___ no____ n/a___
13. Students wrote comments on their piano melody page without assistance. yes___ no____ n/a___
